

IV Read the following instructions carefully and write a paragraph in English.

The table below shows the responses of young people from four countries to a survey about their self-perceptions. The numbers below each country represent the percentages of young people who answered that the descriptions below applied to themselves. Based on the data in the table, describe how young Japanese are similar to and different from young people in the other countries. Discuss possible ways the attitudes of young Japanese could be changed. Write approximately 80 to 100 words in total. (Indicate the number of words you have written at the end of the composition. Do not count punctuation such as commas or periods as words.)
